

WORKSHOP « BRADEL WITH SUEDE ENDSHEETS »

Ana RUIZ-LARREA
3 days

This is a technique whose main goal is to improve the final quality of what we call « bradel », giving to this bookbinding a more innovating look. The structure doesn't change, but this workshop will show you how to give more elegance to the « bradel » using border to border endsheets.

Level : For people having already done « bradel » bookbinding

Timetable : From 9,30 to 19,30

Price : 300 € each attendant + 30 € for materials (leather, suede endsheets). All these leathers will be already pared at the right thickness.

Book : Maximum format : Height : 20 cm.
Width : 13 cm.
Spine thickness : 1½ cm. before sewing
Max. 10/12 sections not too thick

The book has to be trim (cut in boards) with both covers and illustrations already fixed, with 3 mm. of exemption and two 2-folio sections (first & last) of white endsheets.

MATERIALS AND TOOLS TO BRING

2 folders (1 bonefolder, 1 teflonfolder)

Sewing frame

Thread for sewing

Needles, bross key (5) or thick nails (5)

Cotton tapes for sewing
