Discovery of the Association

Founded in 2003 by Jean Bertold Orsini, this association is aimed to introduce the Médard Fund and the Médard Museum of the city of Lunel.

The love of books and binders prompts us to implement, every three years, prizes and competition in order to transmit and to discover the enrichment of knowledge and know-how of the bookbinder profession to a wide audience.

The first three prizes we held have had international success and we had the pleasure to host some of the most famous in our city. Traditional mostly covers and binders full of fantasy and modernity or young bookbinders can express themselves. The success was every time considerable, the city of Lunel, our partner, giving us the opportunity to exhibit in a prestigious Hall, Chapel, in order to highlight the quality of the exhibitions.

We hope that the theme chosen for this award will inspire the tastes and contemporary sensibilities in innovation and boldness!

To the pleasure of finding in may 2019 lovers of the beautiful books.
